

THE LEGENDARY J-MAN

LAST J-TIME

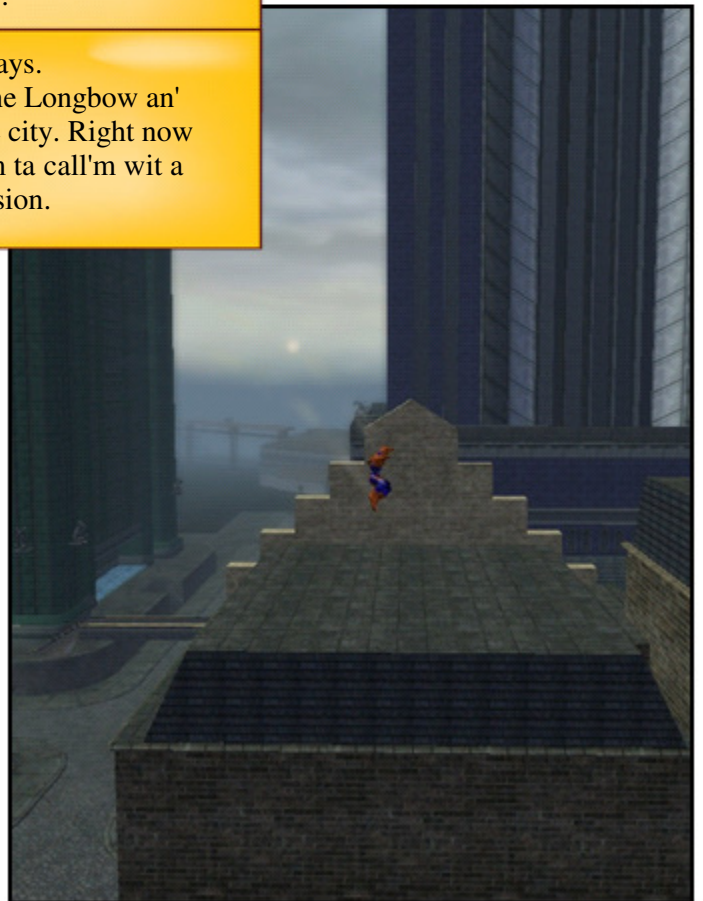

The Legendary J-Man, our hero, has been workin for the Longbow fer about a good three hours now.

So far he's had ta own some n00bs an' manhandle some packages. Fer J-Man his last mission was "a blast." Sure it didn't work out fer anyone but in the end is was "the bomb" heh ...

... anyways.

So he got tired of the Longbow an' took off ta patrol the city. Right now he is waitin fer them ta call'm wit a new mission.

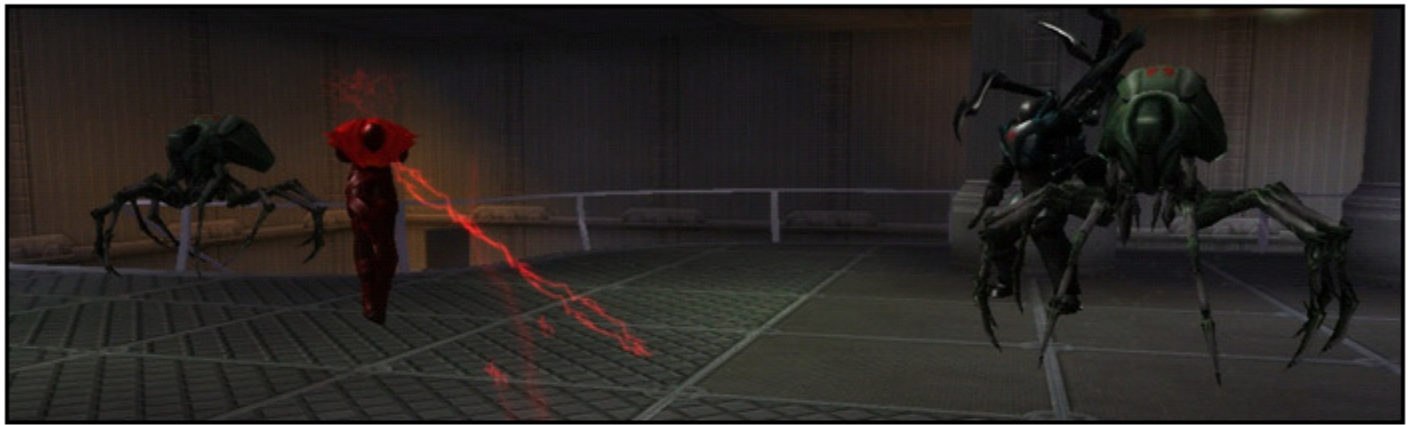

One of the hardest questions ya kin ask J-Man is weather he hates Arachnos or Longbow more.

Excuse me, I'm lookin fer some information about a missin Longbow.
